

Report of Stipulations

Docket No. 2020-275-S

Conference on Condor Environmental, Incorporated's

Request to Hold Procedural Dates and the Hearing Date

In Abeyance

On Monday, February 8, 2021 at 4 pm, Chief Hearing Officer David Butler held a telephone conference call with Charles Terreni, Esquire, Counsel for Condor Environmental, Incorporated ("Condor" or "the Company") and Jeff Nelson, Esquire, counsel for the Office of Regulatory Staff ("ORS"). The discussion centered around Condor's request that the case be held in abeyance, which was contained in a letter from Mr. Terreni, dated January 29, 2021.

During the call, Mr. Terreni clarified that he is requesting that the Commission hold the matter in abeyance until March 1, 2021, and the Commission cancel the notice deadlines, return date, and prefiled testimony date established by the Clerk's Office on January 28, 2021. (By implication, the hearing date would also need to be cancelled if the requested relief is granted.)

Mr. Terreni noted that Condor and ORS will submit a written status report on their efforts to resolve issues by March 1, 2021. Both attorneys reported that their clients were working on trying to arrive at an agreement that helps conclude the application acceptably to all concerned. The parties state their recognition that, after reviewing the report, the Commission would establish a new procedural schedule as it deems necessary. ORS does not object to the Company's request, according to Mr. Nelson. In addition, Mr. Terreni filed an additional letter on February 8, 2021, which reflects the matters described above.

The Chief Hearing Officer stated to the parties that the procedural matters as discussed would be considered by the Commission during its business meeting on Wednesday, February 10, 2021.
